

✦ Kyiv ✦

Arina Andriushchenko and Maria Kravchenko

Kyiv has unique character and interesting history.

Kyiv is a home of the third busiest McDonald's in the world.

First place has got the USA with the busiest McDonald's in the world.

**Kyiv history is much older than it's
recorded history.**

Arsenalna Metro Station is the world's deepest station.

It is 105 meters underground.

The Parkovy Pedestrian Bridge is the symbol of love in Kyiv.

The Paton Bridge is the first welded bridge in the world.

Arina

The longest street in Kyiv is Brovarskii Avenue.

Its length is 14 kilometers!

"Zoloti Vorota" station is one of the ten most beautiful metro stations.

The Kyiv TV Tower is the tallest lattice structure in the world and the tallest building in Ukraine. Its height is 385 meters.

Not the first thing Kyiv is associated with is Khreshchatyk, the shortest, but at the same time, the widest main street among European capitals. Its width is 75 meters.

**Kyiv was the first city in Tsarist
Russi and the second in Europe to
have an electric tram.**
